

Three Day Review Workshop Schedule for CPIM Exams

Atlanta, GA - Winter and Spring 2012, Full Series

We will review the materials to pass the CPIM Exam

Basics of Supply Chain Management – Saturday (January 7, 14, and 21, 2012, repeated in June, 2012)

In the Basics, you get a complete overview of material flow, from internal and external suppliers to and from your organization.

Topics include: Elements of the Supply Chain, Just-in-Time (JIT), Total Quality Management (TQM), Manufacturing Resources Planning (MRP II), Demand Planning, and Capacity Management.

Execution and Control of Operations– Saturday (February 4, 11, and 18, 2012)

The course explains techniques for scheduling and controlling production processes, the execution of quality initiatives and continuous improvement plans, and the control and handling of inventories.

Topics include: Prioritizing and Sequencing Work, Executing Plans and Implementing Controls, Authorizing and Reporting Activities for Push and Pull Systems, and Evaluating Performance and Providing Feedback.

Master Planning of Resources – Saturday (March 3, 10 and 17, 2012)

The course focuses on the importance of producing achievable master schedules that are consistent with business policies, objectives, and resource constraints.

Topics include: Demand Management, Sales and Operations Planning, Master Scheduling, and Measuring Business Performance.

Strategic Management of Resources – Saturday (April 7, 14, and 21, 2012)

The course addresses three main topics: aligning resources with the strategic plan, configuring and integrating operating processes to support the strategic plan, and implementing change.

Topics include: Competitive Market Issues, Choices Affecting Facilities, Supply Chain, Information Technology, and Organizational Design, Configuring and Managing Projects.

Detailed Scheduling and Planning – Saturday (May 5, 12 and 19, 2012)

Study detailed descriptions of material requirements planning (MRP), capacity requirements planning (CRP), inventory management practices, and procurement and supplier planning.

Topics include: Recognizing Techniques and Practices of Inventory Management, Mechanics of the Detailed Material Planning Process, Planning Operations to Support the Priority Plan, and Planning Procurement and External Sources of Supply.

This sequence will repeat starting with the June, 2012 Course
